11TH ANNUAL PROJECT COMMUNITY CONNECT

What is Project Community Connect?

Happening in our community since 2009, it's our whole community coming together for a day to help our neighbors. It's a collaborative effort between service providers, government agencies, private businesses, and private citizens working together to help change for the better the lives of people threatened with or experiencing a loss of their homes and security.

Do other areas do a Project Community Connect event?

Since 2004 over 200 cities of every size from coast to coast have held project connect events. The first was in San Francisco. Volunteers from all walks of life engage vulnerable, struggling people, welcoming them into community and helping to stabilize their lives.

Why participate in Project Community Connect?

It is about real solutions to complex problems. It requires all of us circling around our community's vulnerable people in protection and support. The result is a stronger community for everyone.

Our mission is to bring together all sectors of the community to help individuals and families fulfill their hopes and dreams.
